A DETAILED STUDY ON

RECRUITMENT AND SELECTION

PRACTICES AT SOUTH EASTERN COALFIELDS LIMITED (SECL), BILASPUR

— Human Resource Management Perspective —

• PRESENTED BY

SUYASH SONKAR

MBA – Human Resource Management

Roll Number: 25016273

Academic Session: 2026–2027

• ACADEMIC INSTITUTION & TIMELINE

Department of Management Studies
Guru Ghasidas Vishwavidyalaya, Bilaspur

Internship Period: 25 June 2026 – 24 July 2026

Affiliation: Central University of Chhattisgarh

• HOST ENTERPRISE & CADRE STUDY

South Eastern Coalfields Limited
Subsidiary of Coal India Limited • Miniratna PSU

PLANNING › SOURCING › TESTING › SELECTION

Training Focus: HR&A Executive Cadre Management

Executive Summary — Overview of the Study

SECL BILASPUR HQ | 25 JUNE – 24 JULY 2026 | 30 DAYS TOTAL TRAINING

Study at a Glance

HOST ENTERPRISE South Eastern Coalfields Limited	TRAINING PERIOD 25 June – 24 July 2026
FUNCTIONAL AREA HR&A (Personnel & Administration)	CORE TOPIC Recruitment & Selection Practices
CORPORATE SCOPE Headquarters & Operational Mines	STUDY METHODOLOGY Departmental Desk Rotation

Main Objectives of the Study

- **Organisational Context:** Studying recruitment and selection practices in a large coal mining PSU.
- **Manpower Planning Connection:** Understanding how sanctioned posts and workforce planning create hiring requirements.
- **Employee Administration:** Examining how service books and employee records are maintained in Executive Establishment.
- **Department Coordination:** Understanding how Industrial Relations (IR) and HRD connect with recruitment.
- **Theory to Practice:** Connecting classroom HR concepts with real public sector workplace practices.

Departmental Exposure Rotation

Practical rotation across 4 key HR departments (7 + 7 + 7 + 9 Days)

EE	Manpower	IR	HRD
7 Days	7 Days	7 Days	9 Days
Executive Establishment	Workforce Planning	Industrial Relations	Human Resource Dev.
Service records, transfers & postings	Workforce requirements & intake routes	Trade union coordination & NCWA agreements	MDI training & skill development

Rotation Time Distribution Across Functions — 100% Total Exposure (30 Days)

4	30	100%
Core HR Wings	Days Training	Practical Focus

Introduction — HR Lifecycle & Study Objectives

HRM 5-STAGE LIFECYCLE | RESEARCH PROBLEM STATEMENT

Background of HRM

HRM operates through a connected 5-stage employee lifecycle:

01 **Acquisition**
Finding, selecting & hiring new employees

02 **Development**
Induction at MDI, training & skill building

03 **Utilisation**
Placing employees in the right departments & mines

04 **Engagement**
Employee motivation, welfare & workplace recognition

05 **Maintenance**
Service records, union relations & legal compliance

Why Recruitment & Selection?

🎯 **Entry Point of HR:** They represent the first step of the employee relationship, setting the foundation for future workforce productivity.

🌊 **Building the Candidate Pool:** Recruitment announces vacancies publicly to attract a qualified and diverse group of applicants.

⚖️ **Evaluating Candidates:** Selection evaluates applicants through tests, interviews, and medical checks against predefined job specifications.

⚡ **Matching Job Requirements:** Proper selection ensures employees meet DGMS mining safety standards, physical fitness, and operational needs.

Objectives of the Study

- ✓ **Understand Core Concepts:** Learn the basic concepts and key differences between recruitment and selection.
- ✓ **Step-by-Step Flow:** Study the complete hiring process from vacancy planning to employee induction.
- ✓ **Manpower Planning Role:** Examine how manpower planning creates and justifies the need for recruitment.
- ✓ **Department Coordination:** Understand how EE, Manpower, IR, and HRD work together in the HR lifecycle.
- ✓ **Practical Exposure:** Document real observations of public sector HR files, procedures, and daily work.
- ✓ **Practical Suggestions:** Identify practical challenges and suggest useful improvements for SECL.

04. ORGANISATIONAL CONTEXT

Organisation Profile — South Eastern Coalfields Limited (SECL)

MINIRATNA PSU | EST. 1985 • BILASPUR (C.G.) | 176.28 MT COAL OUTPUT (FY 2025–26)

Corporate Identity & Enterprise Scale

CORPORATE HEADQUARTERS
Bilaspur, Chhattisgarh (SECL Bhawan, Vasant Vihar)

ESTABLISHMENT & STATUS
1985 • Premier Miniratna Category-I PSU

APEX PARENT ENTERPRISE
Subsidiary of Coal India Limited (Ministry of Coal, GoI)

GEOGRAPHICAL FOOTPRINT
Command area spread over Chhattisgarh & Madhya Pradesh

OPERATIONAL CAPACITY & PRODUCTION PROFILE

Workforce: ~42,000+ (Indicative / Unverified Industry Est.)

176.28 MT	57 Mines	13 Areas	Gevra / Dipka
176.28 Million Tonnes — FY 2025–26 Coal Production	57 Operating Mines (as of 31 March 2025)	13 Operating Areas	Asia's Mega Opencast Pits
Annual Output	38 Underground • 19 Opencast	Decentralized Management	High-Capacity Mining Assets

COAL RESERVES INVENTORY — As of 1 April 2024

92,240.65 Million Tonnes Geological coal reserves across Chhattisgarh & Madhya Pradesh coalfields

Key Employee Groups & Cadres

CORE MINING & TECHNICAL CADRE:
Mining Engineering | Excavation & HEMM | Electrical & Mech. | DGMS Mine Safety | Survey & Geology

PERSONNEL & GOVERNANCE CADRE:
HR & Administration | Manpower Planning | Industrial Relations (IR) | HRD & Training (MDI) | Legal & Land Loser Cell

COMMERCIAL, MEDICAL & SUPPORT:
Finance & Accounts | Medical & Hospital Services | Materials Management | CSR & Community Welfare | Systems & IT

CORPORATE VISION

"To be one of the leading energy suppliers in the country, by adopting the best practices and leading technology from mine to market."

HR Analytical Observation: Strategic talent acquisition and structured technical upskilling directly enable the operational transition toward modern, technology-driven mining practices.

CORPORATE MISSION

"To produce and market the planned quantity of coal and coal products efficiently and economically in an eco-friendly manner with due regard to safety, conservation and quality."

HR Analytical Observation: Enforcing strict Mines Act compliance, maintaining transparent personnel records, and sustaining tripartite industrial relations safeguard continuous production while prioritizing worker safety and environmental conservation.

MEGA PRODUCTION ASSET SECL Gevra / Dipka Opencast Coal Mine — One of the largest coal mines in Asia, operating heavy machinery that requires skilled manpower and strict safety training.

05. INTERNSHIP ROTATION

HR Department & Internship Rotation

4 CORE DEPARTMENTS | MDI BILASPUR TRAINING

DEPARTMENT	MAIN ROLE & PURPOSE	PRACTICAL FOCUS	OBSERVED DEPARTMENT ACTIVITIES
EE Executive Establishment (7 Days)	Personnel Administration	**Service Records & Transfers**	Observed executive service book maintenance, transfer and posting orders across 13 areas, joining reports, and document verification for promotion processes.
Manpower Workforce Cell (7 Days)	Workforce Planning	**Workforce Requirements & Intake**	Studied sanctioned posts, vacancy calculations based on production needs, and observed special intake cases: Land Loser R&R employment and NCWA Clause 9.3.0 compassionate appointments.
IR Industrial Relations (7 Days)	Employee Relations & Welfare	**Union Coordination & Welfare**	Observed union-management meetings, grievance records, compliance with the Mines Act 1952, and employee welfare facilities across mining areas.
HRD Human Resource Dev. (9 Days)	Training & Development	**Training & MDI Induction**	Observed Management Trainee induction at MDI Bilaspur, safety refresher courses for mining staff, apprentice training under the Apprentices Act, and skill development programs.

HRD CENTER • MDI BILASPUR

SECL Management Development Institute (MDI) — Training center for new Management Trainees, safety training, and employee skill development.

SYSTEMS PERSPECTIVE

How HR Departments Work Together

How the 4 HR wings connect and support each other

01 Manpower Planning — Calculates vacancies and approves requirements

→

02 Recruitment & Selection — Attracts applicants and selects suitable candidates

→

03 Executive Estab. (EE) — Maintains service records and manages postings

→

04 Industrial Relations (IR) — Maintains union coordination and employee welfare

→

05 HR Development (HRD) — Conducts induction and ongoing skill training

Key Takeaway:
HR functions in SECL are closely connected: Manpower planning identifies the need, Recruitment brings people in, EE manages records, IR maintains peace, and HRD develops skills.

Recruitment & Selection — Concepts & Differences

POSITIVE / ATTRACTION PROCESS

Recruitment

MAIN PURPOSE

To announce job vacancies and build a qualified pool of candidates.

APPROACH:	**Positive & Open:** Aims to attract eligible candidates across various media channels.
MAIN OBJECTIVE:	**Building Candidate Pool:** Ensures sufficient competition and choice for open jobs.
METHODS & CHANNELS:	**Outreach Media:** Employment News, official CIL/SECL websites, national newspapers, and campus drives.
PROCESS ORDER:	**First Phase:** Starts after Manpower Planning approves a vacancy requirement.
IMPACT OF ERROR:	**Low Impact:** Getting more applications increases clerical work, but does not affect mine safety.

KEY INSIGHT ON VOLUME

A large number of applicants does not automatically mean high quality. Clear Job Specifications are necessary to attract the right candidates.

MEASURABLE OUTPUT

Qualified Pool of Applicants

VS

NEGATIVE / SCREENING PROCESS

Selection

MAIN PURPOSE

To evaluate candidates and choose the most suitable person through tests and interviews.

APPROACH:	**Filtering & Evaluative:** Aims to eliminate applicants who do not meet required standards.
MAIN OBJECTIVE:	**Matching Person with Job:** Selects candidates who have the required skills, physical fitness, and qualifications.
METHODS & TOOLS:	**Structured Assessment:** Computer Based Tests (CBT), personal interviews, document verification, and Initial Medical Examination (IME).
PROCESS ORDER:	**Second Phase:** Follows recruitment and transfers selected candidates to Executive Establishment.
IMPACT OF ERROR:	**High Impact:** A wrong hiring decision in mining can compromise safety and production.

RULES & MERITOCRACY

In a public sector enterprise like SECL, selection must follow strict merit, government reservation rules (SC/ST/OBC/EWS), and medical fitness standards.

MEASURABLE OUTPUT

Selected & Appointed Employees

07. OPERATIONAL WORKFLOW

Recruitment & Selection Process — Step-by-Step Flow

8-STAGE HIRING PROCESS

8 SYSTEMATIC STAGES Step-by-Step Recruitment Process

Standard public sector hiring pipeline from initial vacancy planning to employee onboarding

01 Manpower Requisition
Operating areas identify vacancies based on retirements and coal production targets.

02 Job Analysis
Defines key duties, responsibilities, reporting lines, and workplace safety conditions.

03 Job Specification
Specifies required degrees, DGMS safety certificates, experience, and age limits.

04 Job Advertisement
Vacancy notice published in Employment News, national newspapers, and CIL web portals.

05 Application Screening
Scrutinizing applications, verifying eligibility, and applying reservation rules.

06 Selection Tests & Interviews
Conducting Computer Based Tests (CBT) and panel interviews for shortlisted candidates.

07 Merit List & Medical Exam (IME)
Declaring merit list followed by Initial Medical Examination (IME) under Mines Rules.

08 Joining & Induction Training
Appointment letter issued, EE service book created, and induction training at MDI Bilaspur.

CORE PRINCIPLE

“Recruitment starts with clear job analysis and approved vacancies; selection strictly checks candidates against predefined job specifications.”

Job Analysis (About the Job)

ILLUSTRATION: SECL ASST. MINE MANAGER

- **Key Duties:** Supervising shift operations in open-cast mines, managing machinery dispatch, and safety monitoring.
- **Safety Responsibilities:** Ensuring strict compliance with DGMS safety rules and the Mines Act 1952.
- **Working Conditions:** Rotating shift work, active open pit mining environment, and heavy machinery operations.

Job Specification (About the Person)

CANDIDATE QUALIFICATION BENCHMARK

- **Education:** Degree in Mining Engineering (B.E. / B.Tech) from an AICTE recognized institution.
- **Statutory Certification:** Valid Mine Manager's Certificate of Competency issued by DGMS.
- **Physical Fitness:** High medical and physical fitness standards under Mines Rules 1955.
- **Key Skills:** Decision making, safety awareness, leadership, and effective team communication.

Medical Fitness Requirement:
In mining operations, selection is not only based on marks. Every selected candidate must pass the Initial Medical Examination (IME) under the Mines Rules 1955 before joining.

08. UPSTREAM STRATEGY

Manpower Planning & Recruitment Linkage

DEMAND-DRIVEN STRATEGY | SECL MANPOWER MATRIX

4 Core Questions of Manpower Planning

HOW MANY?
Calculating sanctioned posts vs current working employees across all 13 operating areas.

WHAT SKILLS?
Identifying required technical qualifications, DGMS safety certificates, and job skills.

WHEN NEEDED?
Planning hiring timelines based on upcoming retirements and annual coal production targets.

WHERE DEPLOYED?
Allocating workforce between Bilaspur headquarters and remote opencast or underground mines.

WORKFORCE GAP FORMULA

Sanctioned Posts − [Current Staff − Retirements] = Net Hiring Need

Takes into account upcoming retirements, transfers, and new mining projects.

SECL 4 WORKFORCE INTAKE PATHWAYS (OBSERVED IN PRACTICE)

1. **CIL Open MT Exam:** Centralized national CBT and campus hiring
2. **Internal Promotion:** Departmental career progression for existing staff
3. **Land Loser Employment:** Jobs under state Rehabilitation & Resettlement (R&R)
4. **Compassionate Appointment:** Dependent jobs under NCWA Clause 9.3.0

How HR Responds to Different Manpower Situations

Matching workforce needs with the right HR solutions

WORKFORCE SITUATION (SECL CONTEXT)	RECOMMENDED HR ACTION
DEFICIT IN NUMBERS **Shortage of Employees** Retirements happen faster than new entries in mining and electrical supervisory cadres.	**External Recruitment / Internal Transfer** Start CIL open recruitment notification or transfer qualified supervisors from closing pits.
SKILL GAP **Skill / Technical Shortage** Modernization requires Highwall mining, Surface Miner operations, and ERP software skills.	**Training at MDI Bilaspur / Technical Hiring** Organize practical training at MDI Bilaspur or recruit specialized technical professionals.
WORKFORCE SURPLUS **Surplus Workers in Older Mines** Older underground mines closing down lead to extra workers without active roles.	**Internal Redeployment & Retraining** Shift workers to expanding opencast mines (like Gevra) after providing machinery training.
LONG-TERM GROWTH **Upcoming Leadership Vacancies** Upcoming retirement of senior General Managers over the next 3 to 5 years.	**Succession Planning & Mentorship** Prepare promising managers through rotational experience across Area offices and mines.

Internship Work & Practical Learning

DEPARTMENTAL LEARNING

Practical Exposure Across 4 Departments

EE (Executive Establishment)

- **Service Records:** Observed executive service books, leave records, and pay-fixation entries.
- **Transfers & Postings:** Studied transfer orders, joining reports, and posting movement across 13 areas.
- **Promotion Files:** Examined promotion eligibility lists, vigilance clearances, and performance appraisal reports (PAR).

Manpower Planning Cell

- **Sanctioned Posts:** Studied vacancy sheets and compared actual staff with approved manpower limits.
- **Land Loser Cases:** Observed employment files under state Rehabilitation & Resettlement (R&R) rules.
- **Compassionate Appointments:** Studied dependent employment files processed under NCWA Clause 9.3.0.

IR (Industrial Relations)

- **Union Meetings:** Observed meeting records of the Joint Consultative Committee and union representations.
- **Grievance Handling:** Examined employee grievance records and dispute resolution procedures.
- **Welfare & Compliance:** Studied compliance with the Mines Act 1952, safety equipment, and housing welfare.

HRD (MDI Bilaspur Training)

- **Training Schedules:** Studied annual training plans and technical refresher courses for mining staff.
- **Induction Programs:** Observed orientation modules for newly joined Management Trainees at MDI Bilaspur.
- **Safety Training:** Observed training documentation for mandatory mining safety certifications.

Practical Learning Takeaway:
Observing real files showed that public sector HR relies on careful documentation, official approvals, and clear rules rather than informal decisions.

Professional Skills & Learning Gained

Documentation & Record Keeping
Learned how official note-sheets are drafted and service books are maintained accurately.

Professional Communication
Learned formal communication with officers, staff, and union representatives in a corporate environment.

Punctuality & Discipline
Experienced corporate discipline, regular office hours, and completing tasks within deadlines.

Confidentiality & Ethics
Understood the importance of keeping employee personal files and performance records secure.

Practical Observation
Observed how policies made at Headquarters are carried out in everyday mine operations.

Connecting Theory to Practice
Learned to connect textbook MBA concepts with real workplace procedures and file movements.

Key Takeaway:
The 30-day rotation helped me develop practical understanding, professional communication, and confidence in handling HR processes.

10. CRITICAL ANALYSIS

Challenges & Key Findings

THEORY VS PRACTICAL REALITY

Practical Challenges During Training

01 **Large Organisation Scale:** Understanding the HR operations of ~42,000 employees across 13 operating areas within a 30-day rotation required quick learning and focus.

02 **Different Rules for Different Wings:** Each HR wing follows specific rules: CIL Executive Rules in EE, NCWA agreements in IR, and DGMS mining safety standards in HRD.

03 **Confidential Employee Information:** Personal files, vigilance reports, and performance appraisals are confidential, so I focused on understanding the standard procedures.

04 **Theory vs. Public Sector Reality:** Textbooks show recruitment as a simple step-by-step process, but in a PSU it involves committee approvals, reservation rules, and trade union discussions.

05 **Confidential Internal Data:** Internal candidate numbers and exact manpower figures are protected, so my project focuses on qualitative workflow analysis and official procedures.

Major Findings & HR Insights

1 **Demand-Driven Recruitment:** Recruitment does not start on its own; it begins only after manpower planning confirms sanctioned vacancies approved by CIL.

2 **Attraction vs. Screening:** Recruitment focuses on attracting candidates (positive process), while selection focuses on screening and choosing the right person (negative process).

3 **Continuous Employee Records:** Once selection is complete, Executive Establishment maintains the employee's service records throughout their career.

4 **Vital Role of Industrial Relations:** IR builds trust between management and trade unions to maintain workplace harmony and mine productivity.

5 **Practical Training at MDI:** Training at MDI Bilaspur prepares new employees for real mining conditions and safety requirements.

6 **Department Coordination:** All HR wings depend on each other. Delays in manpower planning delay hiring, and incomplete EE records affect promotions.

7 **Fairness & Confidentiality:** Maintaining confidential personnel records and ensuring fair reservation policies are essential HR duties.

11. ADVANCED HR ANALYTICS PERSPECTIVE

Key Findings & HR Insights

STRATEGIC HR VIEW | HR PERFORMANCE MODEL

5 Ways to Meet Workforce Requirements

Recruitment is only one of five options used by HR

1. External Recruitment:
Brings in fresh talent and specialized skills from outside the organisation.

2. Internal Promotion (DPC):
Promotes existing employees based on merit and seniority, motivating the workforce.

3. Inter-Area Transfer:
Moves experienced employees between Headquarters and the 13 operating areas.

4. Retraining at MDI:
Upgrades existing employee skills at MDI Bilaspur when new mining machinery is introduced.

5. Redeployment:
Transfers surplus staff from older underground mines to expanding open-cast mines.

SECL / CIL 6-STAGE RECRUITMENT PROCESS

1 Requisition → 2 Open Notif. → 3 National CBT → 4 Interview & DV → 5 Mines IME → 6 MDI Posting

RESEARCH ETHICS

"Analysis is based on genuine organizational procedures without creating false numbers."

Respecting company confidentiality while presenting clear MBA qualitative analysis.

HR Metrics for Measuring Recruitment Success

Key measures to evaluate how well the recruitment process works

HIRING SPEED

Time-to-Fill

Number of days taken from vacancy approval to candidate joining.

NOT CONFIRMED DATA PSU Standard: 120–150 Days • Goal: Reduce time taken for testing and document checks

COMPETITION LEVEL

Selection Ratio

Ratio of selected candidates compared to the total number of applicants.

NOT CONFIRMED DATA CIL HR Exam: ~1:85 Ratio • High competition ensures quality engineering talent

OFFER ACCEPTANCE

Joining Ratio

Percentage of selected candidates who actually join the company.

NOT CONFIRMED DATA SECL Standard: 90%–94% • High job security and benefits encourage candidates to join

VACANCY TIME

Vacancy Ageing

How long critical mine manager and safety positions remain unfilled.

NOT CONFIRMED DATA Target: Under 60 Days • Avoids safety and operational delays in mines

EMPLOYEE RETENTION

First-Year Attrition Rate

Percentage of new employees who leave the organisation during their first year.

NOT CONFIRMED DATA SECL Standard: Very Low (less than 3.5%) • Supported by strong job security, medical, and housing benefits

Conclusion & Practical Suggestions

SUMMARY MODEL

The Complete Integrated HR Cycle

- **1. Manpower Planning:** Forecasting workforce needs based on coal production targets
- **2. Recruitment:** Attracting candidates and creating an applicant pool
- **3. Selection & Testing:** Objective CBT exam, document verification & medical test
- **4. EE Onboarding:** Service book creation, posting orders & joining formalities
- **5. Industrial Relations:** Union dialogue, workplace harmony & employee welfare
- **6. HRD Capability Building:** Continuous technical and safety training at MDI Bilaspur
- **7. Succession & Promotion:** DPC promotions feeding back into manpower planning

Final Conclusion:
Recruitment and selection work best when connected with all HR functions—where manpower planning guides hiring, Executive Establishment manages records, IR maintains peace, and HRD develops skills.

Suggestions for the Organisation (SECL)

- **Integrated Digital HR Database:** Connect employee records across EE, Manpower, and HRD into a single digital system for faster processing.
- **Forward-Looking Manpower Planning:** Use retirement forecasts to start the recruitment process early and avoid vacant positions.
- **Need-Based Training at MDI:** Design induction training programs based on specific skill needs identified during the selection exam.
- **Digital Reservation Rosters:** Maintain digital reservation registers (SC/ST/OBC/EWS) to speed up promotions and ensure transparent compliance.

Suggestions for Future Internships

- **Pre-Internship Orientation:** Provide a brief introduction to mining laws (Mines Act 1952, NCWA) before students begin their training.
- **Practical Case Studies:** Give interns specific non-confidential project exercises to solve under officer guidance.
- **Regular Mentor Discussions:** Set up weekly review meetings with HR mentors to discuss learning progress.
- **University-Industry Interaction:** Encourage regular interaction between university professors and SECL HR officers to keep the curriculum practical.
